

WINE, ENOVITIS IN CAMPO CLOSSES WITH RECORD NUMBER OF EXHIBITORS, NEXT HOSTING HEROIC VITICULTURE WITH ENOVITIS EXTRÊME (13 JULY, CHIUSA -BZ)

(Polpenazze del Garda - BS, 12 June 2023). Record number of exhibitors and over 5,500 visitors, despite the bad weather. The 17th edition of Enovitis in Campo, the Unione italiana vini's travelling event dedicated to viticulture technologies, held on 7 and 8 June in Polpenazze del Garda (BS) ends successfully. Paolo Castelletti, Secretary General of Unione Italiana Vini, said: "Enovitis in campo is confirmed as the reference event in Italy for vineyard machinery and equipment, a unique event in terms of representativeness, vibrant proposals and topical issues dealt with in the technical debates. Thanks to the superb collaboration of the Erian - Cantina Bottenago – farm, he continued – the rain did not compromise the success of the event that once again focussed on the most modern technologies for agronomic practices: an important opportunity to meet and exchange ideas for the sector, as shown by the increasing number of exhibitors every year as well as the renewed interest from the specialised operators who participate in the two-day event". There are in fact 172 companies that have brought their products to the Brescia vineyards, attracting the attention of foreign visitors too, this year in particular from Germany, Slovenia and Kazakhstan. The spotlight is on the most innovative solutions in the field of robotics, electrification, reduction of chemicals from organic to agropharmaceuticals to biostimulants.

And the baton is now handed over to Enovitis Extrême, the "clone" of Enovitis in campo dedicated to mountain and steep slope vineyards, which on July 13 will go live in the vineyards of the Isarco - Eisacktal Valley Winery (Chiusa, BZ) for the second edition of the dynamic event reserved for heroic viticulture. This event deals specifically with the use of operating machines and equipment intended for use in impervious orographic conditions with very high production costs.
